

## Training and Medical Specialisations John Verhiel:

In 1997 I successfully completed my studies in Natural Medicine at the S.A.G.H.O. (Social Academy for Medicine, Homeopathy and Orthomolecular Nutrition).

### This study included:

Anatomy (doctrine of the human body),  
Physiology (doctrine of metabolism) and  
Pathology (doctrine of diseases)

Orthomolecular medicine (detecting diseases caused by nutritional deficiencies and temporarily supplementing them with proprietary supplements)

Homeopathy (curing illnesses with diluted substances that, in their pure form, precisely cause these complaints) and

Phytotherapy (curing diseases with plant substances)

In 2000, the S.A.G.H.O. -study Physical Examination and Diagnostics (being able to examine someone according to the Regular Medicine in order to be able to make a diagnosis of his disease) was also successfully completed...

I also have a unique formula within the Preventive Medicine Developed and specialized in Preventive Medicine with a unique blood test, which indicates the cause of a person's symptoms. The test consists of a blood test that shows the current state of health, in fact, that shows the cause of the current complaints and even offers the possibility to treat them successfully.

From a preventive point of view, this blood test provides insight into one's current state of health and allows one to take timely measures. The report, presented by means of 14 pages A4, including clear blood photos, is also represented graphically. The graph of the 31 parameters in 12 gradations is clearly described.

### I am also specialised in:

- \*Nutritional-related complaints
- \*Diagnosis + treatment
- \*Hairmineral analysis-Diagnosis + treatment
- \*Phasecontrast-dark field-fluorescence microscopy
- \*Homeopathy
- \*Phytotherapy (plant medicine)
- \*Vascular diagnostics
- \*Nutritional analysis-Diagnosis + treatment
- \*Sugar metabolism-Diagnosis + treatment
- \*Orthomolecular Medicine
- \*Orthomolecular Cell Biology
- \*Natural Medicine
- \*Omega-36 Index Testing
- \* Nutrition Intolerance diagnostics
